25X1B [] well-known Soviet supply installations.

25X1A 3. [] Comment. Incoming and outgoing shipments at the GOFG motor vehicle spare parts depot were normal.

25X1A 4. [] Comment. These shipments were included in previous transportation reports. [] 25X1A

25X1 A 5. [] Comment. Traffic to and from the GOFG ordnance depot did not show any unusual features.

25X1 A 6. [] Comment. All these shipments undoubtedly consisted of river crossing equipment dispatched to the engineer park of the GOFG in Ketschendorf, although in some cases this was not expressly stated. Some of the shipments were also reported by other sources. Depending on the size of the equipment, up to six pontoons can be loaded on one flatcar. The number of flatcars with sideracks involved adds up to a total of 300 during the reported period, which indicates that the engineer equipment park in Ketschendorf received major quantities of river crossing equipment.

25X1A 7. [] Comment. Apart from the increased shipments of river crossing equipment, traffic between the engineer park in Ketschendorf on the one hand and the army engineer equipment parks, engineer units, and engineer training sites on the other was normal.

25X1A 8. [] Comment. Traffic to and from this medical depot of the GOFG was normal.

9. [] Comment. The traffic reported for the latter three depots was at about the same level as during the preceding months.

25X1A 10. [] Comment. These shipments probably consisted of engineer explosives. An engineer explosives depot is believed to be located in Fuerstenwalde-Berkenbrueck. For its pinpoint location, [] 25X1A installation 5b.

25X1A 11. [] Comment. These motor vehicle shipments were not mentioned in previous reports on border traffic. However, it is believed possible that they were dispatched as stated in the present report.
